

ECOLINE 230

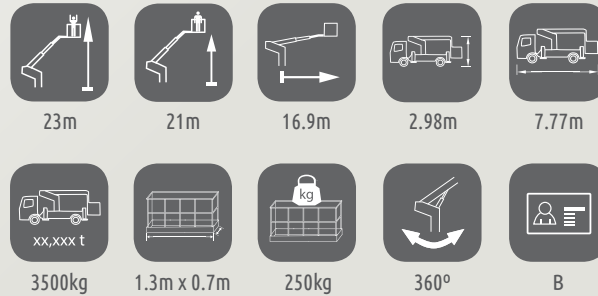

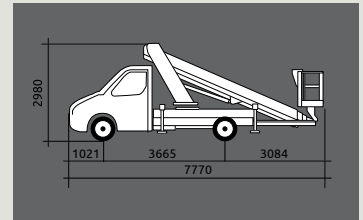

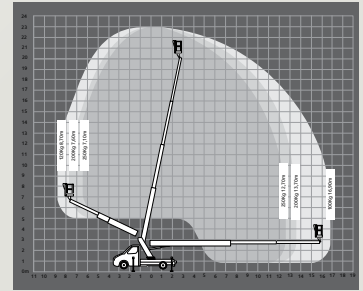

ECOLINE 230

FEATURES

- Top price-performance ratio
- Enormous lateral outreach to 17m
- High loading capacity: 250kg basket load
- Standardisation of RUTHMANN control concept
- 3.5t chassis (EURO 6)
- Multi-chassis compatible

The ECOLINE 230 is a truck-mounted aerial work platform with a rigid telescopic system. The price-performance ratio is second to none. It has a 23m working height and an enormous lateral outreach of up to 17m. Like so many other innovations, this work platform can be mounted onto a variety of different chassis in the 3.5t category.

Our new 23m truck-mounted aerial work platform scores not only with its superb performance capabilities but also with its excellent price performance ratio. Materials and technology speak for themselves.

working height **23m**
 maximum outreach **16.9m**
 platform capacity **250kg**
