

STEIGER®
T 360

STEIGER® T 360

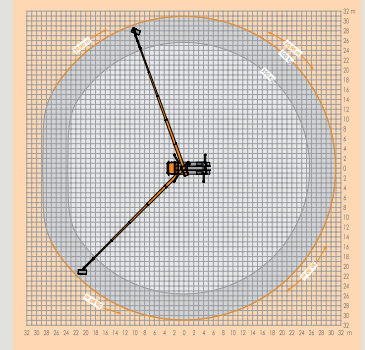

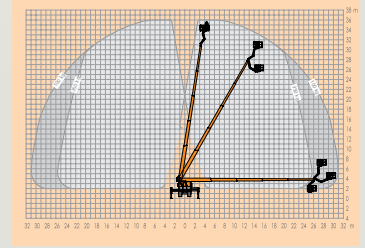

FEATURES

- 36m working height
- 30.9m outreach at 100kg cage load
- 15t to 18t chassis (GVW)
- 5-section telescoping boom system
- 2 x 85° basket rotation device
- 185° jib (RÜSSEL®) swivelling range
- Compact vehicle length of only 9.47m
- 350kg working cage capacity
- Adjustable, state-of-the-art RUTHMANN COCKPIT
- Euro 6 compatible

With the T 360, we offer customers a modern alternative in the 35m truck mounted aerial work platform category. Its impressive performance capabilities include a 31m outreach and almost 360 degree circular range of motion (100kg basket load).

T 360 operators now have an extra 2.3m of additional reach capacity at their disposal. The short overall length of 9.47m combined with a height of 3.77m and short 4.7m (and up) wheelbase, are further reasons why the T 360 is the perfect replacement investment for older work platforms in the 35m category.

The T 360's impressive load capacity is an added advantage. A wide range of optional equipment – box bodies for necessary tools and materials, cab covers, LED marker lights, aluminum platform gates, work basket guard rails, etc. – is available without exceeding the gross vehicle weight rating.

36m	34m	30.9m	9.47m	185°
1.7m x 0.86m	350kg	3.77m	540°	5°

working height 36m
maximum outreach 30.9m
platform capacity 350kg
