EVOLUTION in the 26t class

The T 570 HF is the latest highflex STEIGER® model of the 26t class for truck chassis (3 axles). It provides 57m working height, 41m lateral outreach and numerous added value functions, just like all STEIGER®'s of new highflex generation.

The maximum total length of the telescoping upper boom system with jib is now 18.5m.

The maximum highflex basket rotation angle is an amazing 440° and the jib has a rotation angle of 220°. With the unique basket design and time-tested upright work basket concept, operators of the T 570 HF are able to reach high up objects with utmost precision and agility.
